

MOBILEdit FORENSIC

Complete Forensic Solution

Compelson's complete forensic solution is a package of everything you need to investigate phones. It includes one license of MOBILEdit! Forensic along with a briefcase containing phone cables, a SIM card reader, and an IrDA adapter. The briefcase is lightweight and made for easy organization and mobility. Compelson's USB cables cover most phones on the market and are extremely high quality. While MOBILEdit! Forensic offers connecting via Bluetooth and Infrared as well, connecting with a cable is usually the first choice of digital forensics investigators.
